Rewrite the story

Our network of business leaders drives partnerships between schools, colleges and the world of work, shaping young people's futures, supporting school and college leaders in developing innovative, high quality careers education at the heart of young people's learning journeys.

Our Enterprise Advisers use their knowledge, skills and experience to provide a critically important employer perspective on careers and opportunities in a fast-moving labour market.

Your experience matters and sharing this with schools and colleges across Cumbria has never been more important.

By joining our Enterprise Adviser Network you will also develop strong relationships with schools and colleges, understanding the challenges they face whilst also being part of a national network and a local community of practice.

Virtual Work Experience

Cumbria's employers have a strong track record of inspiring young people with meaningful experiences of the world of work. Speakers for Schools, and other providers, are working with employers to continue and enhance this support to reflect the challenges we currently face.

At Speakers for Schools, our innovative, virtual, approach will customise 'live' employer-led opportunities for young people in our schools and colleges through:

- **Virtual Insight Days** – shorter interactive sessions providing an overview of a sector, an employer, meeting people in different job roles, learning about their career journeys plus workshops in CV building and interview techniques
- **Virtual Placements** – longer 3-5 day project and team based activities, which often include presentations by students as well as workshops on CV building and interview techniques

Your dedicated member of our team will work with you to develop your opportunity or placement. With access to a national network of good practice and training webinars for making the most of our portal and Google Classroom, we will provide a seamless service to facilitate and evaluate the impact of your virtual opportunities to students.

Together, we can deliver a difference for young people. Together we can rewrite the story.

Link Cumbria

We are building a network of small and medium sized employers to work with young people across Cumbria to understand the world of work.

The Link project's Local Employer Engagement Coordinators will work with you to develop high quality, specific careers information about your organisation, your industry and roles to share with young people using a variety of engaging methods including world of work events, mock interviews, speed networking, interactive workshops and presentations to name a few.

Your support in enabling young people to understand the world of work has never been more important and our co-ordinators will provide support that will help you identify how your knowledge, skills and expertise can be utilised to support young people across the county.

Let's rewrite the story!
